More travel calculations to rent a car in Charleston, SC How long is the ride from Toledo, OH to Charleston, SC? The total driving time is 12 hours, 2 minutes. Your journey begins in Toledo, Ohio. Ends in Charleston, South Carolina. If you're planning a trip, you might be interested to see the total distance of travel from Toledo, OH to Charleston, SC. You can also calculate the cost of driving from Toledo, OH to Charleston, SC based on current local gas prices and an estimate of the best gas mileage in your car. Since this is a long drive, maybe you should stop halfway and spend the night in a hotel. You can find a city that's halfway between Toledo, OH, and Charleston, SC. Are you planning on flying a plane instead? You may be more interested in calculating flight times from Toledo, OH to Charleston, SC. City: Toledo State: Ohio Country: United States Category: Cities related links Travelmath helps you find driving time based on the actual directions for your trip. You can find out how long it will take to drive between any two cities, airport, state, country or zip code. This can also help you the best route to travel to your destination. Compare the results with your flight time calculator to see how much it could take a ride distance instead of flying. You can also print travel map pages. In the aforementioned fast calculations, we assumed you had a private jet and just wanted to know the time in the air from city to city. But for most of us, we will fly a commercial airline (whether it's first class or coach). So this means that we really need to take into account all the extra travel time to the airport, waiting for our flight and making it to its destination. To give you a better assessment of real-life travel, we've put together a flight plan with real airports. In the end, you will be able to customize this plan, choosing your own airports and flights. But for now, here's an example we've chosen to give you an idea of how travel might work between airports. Departure Airport: Detroit Metropolitan Wayne County Airport (DTW) Airport Getting there: Charleston International Airport (CHS) With selected airports, we can estimate the travel time to and from the airport, based on how far the airport is from the city center. Getting to the airport: 117 minutes Getting to your destination: 32 minutes Now finally, let's take a look at the actual flight from DTW connecting via LGA and arriving at CHS flying on Delta Air Lines. We can figure out how long it would take to fly, including takeoff and landing, taxi time on runways and an average layover time of about 2 hours. Initial flight time: 1 hour, 45 minutes Airport connectivity: LaGuardia Airport (LGA) Connection flight time: 2 hours, 8 minutes So now we can finally get an idea of the total travel time from Toledo (Ohio) to Charleston, including time spent getting in and out of airports, approximately 2 hours at the airport to depart for TSA security lines and waiting at the gate, plus a connected flight with a two-hour layover. Total travel time: 10 hours To see details on this flight plan, including recommended airports, airline and route, see flight planner: In the quick calculation above, we assumed you had a private jet and just wanted to know the air time from city to city. But for most of us, we will fly a commercial airline (whether it's first class or coach). So this means that we really need to take into account all the extra travel time to the airport, waiting for our flight and making it to its destination. To give you a better assessment of real-life travel, we've put together a flight plan with real airports. In the end, you will be able to customize this plan, choosing your own airports and flights. But for now, here's an example we've chosen to give you an idea of how travel might work between airports. Departure Airport: Yeager Airport (CRW) Arrival Airport: Detroit Metropolitan Wayne County Airport (DTW) With selected airports, we can estimate the travel time to and from the airport, based on how much the airport is away from the city center. Getting to the airport: 8 minutes Getting to your destination: 117 minutes Now Let's look at an example of a flight from CRW to DTW and figure out how long it would take to fly, including takeoff and landing, and time for a runway taxi. Commercial flight time: 1 hour, 4 minutes So now we can finally get an idea of the total travel time from Charleston (West Virginia) to Toledo (Ohio) including time spent getting/from airports, estimated wait times of 2 hours at the airport for TSA security lines and waiting at the gate and the flight itself. Total travel time: 5 hours To see details on this flight plan, including recommended airports, airline and route, see flight planner: There are 645.45 miles from Toledo to Charleston in the southeast direction and 776 miles (1,248.85 kilometers) by car, following route I-77 S and US-33.
